

TIME TO PAY UP:

THE EASIEST WAYS TO MAKE IRS PAYMENTS

1

Use IRS Direct Pay

Pay the IRS directly from your checking or savings account - simple as that!

It's safe, too. The IRS won't store your bank information.

Securely Pay with EFTPS

2

The EFTPS site is available 24/7, making it a convenient and safe payment option.

You can even schedule payments for up to 365 days in advance.

3

Mail a Check or Money Order

Make your check or money order payable to the U.S. Treasury before mailing it.

Include a Form 1040-V in the envelope. Be sure to avoid staples and paper clips.

Swipe Your Debit or Credit Card

4

Go through one of the IRS's service providers to pay with credit or debit card.

They'll charge you processing fees, but it's quick and easy!
